

Photography in the Library

No one may use photographic equipment, including personal electronic devices, in the library without prior permission from the Library Director. Anyone attempting to take photos/film/videos without prior permission will be advised of this policy and may be asked to leave the library. Continued failure to obtain prior permission may result in the loss of library privileges. Professional filmmakers, videographers and/or photographers may request to use the library as a venue for filming at a compensation rate to be determined by the Board of Trustees.

Adopted by the Board of Trustees 1/2012
